COMPANY OVER VIEW

Abago Security Ltd is a security company providing comprehensive and tailored Protective services, logistics, procurement and training for the defense, energy, and financial sectors, as well as high net-worth clients, diplomatic missions and international organizations operating in high-risk, volatile, hostile, and complex environments.

We currently offer service within South Sudan. Abago Security Company was founded in South Sudan and is currently positioned within the security industry landscape as a Professional and reliable security provider.

MISSION

Our mission is to provide protection and security to our clients through a bespoke service tailored to their specific needs, ultimately the safety and security of the client's staff, premises, assets and the general public is our highest priority.

VISION

We are committed to the ongoing improvement of the services we provide to our clients. By investing in and developing our most important assets, our staff, we aim to achieve all our goals and exceed our clients' expectations. Through our commitment to high standards it is our vision to earn the trust of our clients by delivering the best quality security services within Kenya

VALUES

As a company and as individuals we value above all else honesty, integrity, unselfishness, professionalism and mutual respect. For our staff, we offer a rewarding and challenging environment where personal development can flourish. We hold ourselves accountable to our clients, staff and partners by honoring our commitments, providing results and continually striving to provide the highest quality security services.

OUR WORKING LINE

Abago Security's success lies in the selection of its staff, partners, equipment and the developing of long term relationships with its clients in order to provide quality security services tailored to their needs and budget. Our operations in the field are self-sustained allowing us to reduce management, shorten the line of communication with the clients and deliver responsive global security services and support.

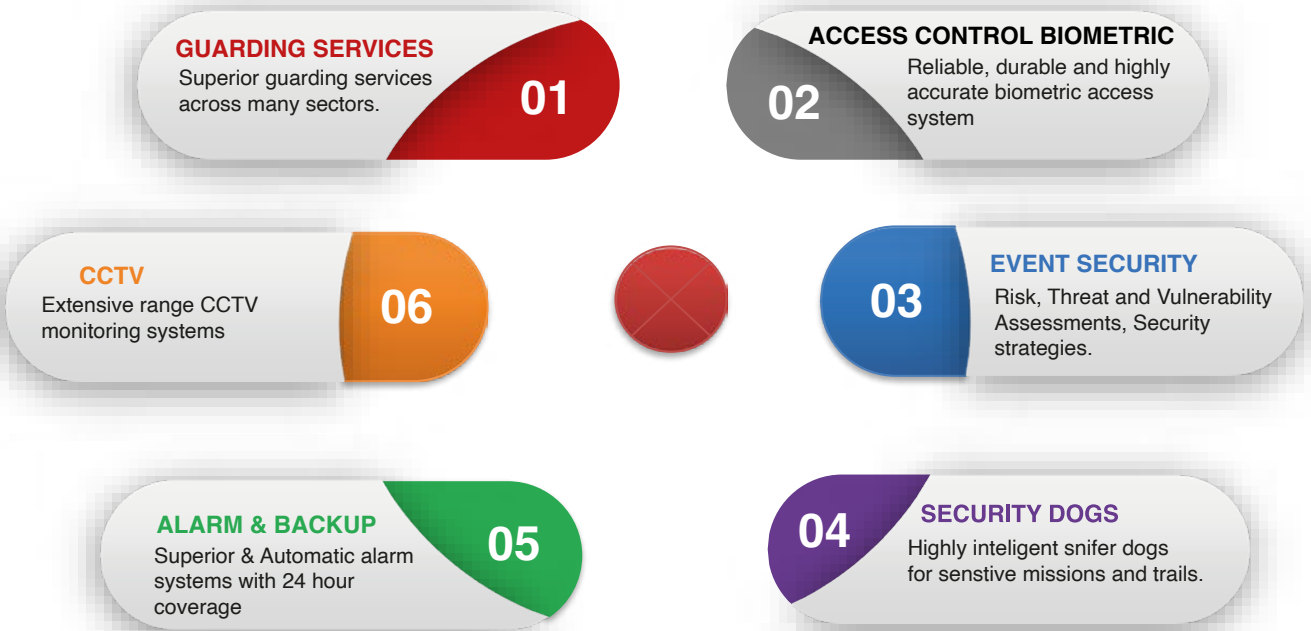

SECURITY SPECIALTIES

Our highly experienced technology consultants develop security, fire alarm, audiovisual systems and communications infrastructure solutions that address the client's security, safety, and technological needs, hence we are a trusted supplier of leading technological security solutions to clients across South Sudan & Africa at large.

In the course of delivering exceptionally responsive service to our clients, we effectively interact with our clients' internal staff, external consultants, architects, and systems integrators.

Below are our security specialties.

GUARDING SERVICES

We provide a wide range of security services, ranging from static guards and guard dogs to emergency response and mobile security. Our dedicated security officers are available 24 hours a day.

We have well trained and highly disciplined guards. They are both physically and mentally fit to ensure that maximum security is accorded in any assignment they are deployed.

Whatever your requirements, Abago Security can guarantee a security guarding service to match your needs.

CCTV SURVEILLANCE

Wouldn't it be great to be able to keep an eye on your business even when on the go, wherever you go? With our advanced Internet Protocol CCTV solutions, not only can you do this, but you can also keep a lid on employee theft and misdemeanors, deter crime from external threats, and inspire confidence and trust with your clients.

Our CCTV solutions can also be integrated with intruder alarms. In this case, the cameras would be programmed to only begin recording once they detect any motion, while simultaneously triggering the alarm.

ALARM & BACK UP

We offer alarm response and backup services using GSM technology to send backup SMS to our control room and our back up patrol vehicles which are strategically placed and ready to give back up. We respond swiftly to any trigger within ten minutes.

We have designed our patrol, monitoring and response services into packages to bring you efficient tailored protection against the risk of theft and damage.

CONTROL BIO-METRIC

We offer reliable, durable and highly accurate biometric access systems. They come ready setup and easy to program via keypads and embedded firmware. Whether being used to access a building, secure restricted locations within, or for time and attendance management, our biometric access systems enhance building security, internal communications, and employee management with utmost reliability and accuracy.

- Reliable, durable and highly accurate infrared detection biometric sensors
- User recognition
- Fingerprint & transaction Storage
- Reads fingerprint and/or RFID cards
- Built-in Serial, Ethernet and USB ports
- Tamper switch and alarm contacts

EVENT SECURITY

Our services give our clients the peace of mind they need to focus on the event.

We make this possible by providing high quality & well managed security & stewarding services which include;

- Event risk, health & safety analysis
- Disaster management, planning & execution
- Crowd management & venue security
- Fire safety planning
- Event Ticketing, cash protection & logistics

Our solutions are designed to enable our customers operate confidently and securely wherever their business takes them.
